

Prevac Portable Pressurizer

Cut down on service hours and make your technicians' lives easier.

R-1233zd, R-11, R-123, R-514A Chiller Pressurization

Overview

The Prevac Portable chiller pressurizer is a tried-and-true system that provides unparalleled performance and safety in raising the water temperature inside the evaporator of a low pressure centrifugal chiller. Designed to reduce service hours and simplify work of technicians, the Prevac Portable Pressurizer is a **safe, fast and easy way to perform leak testing and minor repairs at zero pressure.**

Benefits of Mobile Pressurization

- 20 kW of power
- Adjustable setpoint from 0-6 psig
- Pressure and temperature controlled
- Pressure readout in 1/100 psi increments
- Pump can be operated independently, without the heaters
- Requires only one supply voltage for all components
- Lightweight aluminum cart with pneumatic tires for ease of use
- 20 ft, 10-gauge extension cord
- Total weight: 75 lbs

Model Types

- 20Kw, 480v
- 12kW, 240v

Notes

- 200,000 Amp Interrupting Rated
- (6) low cost, easily accessible, standard stock heaters
- Pump: 30 gpm
- ETL/CSA Approved
